

**The prescription
for your billing
headaches.**

Billing Care

Medical billing services for every need.

For too long, doctors have been subjected to expensive billing services using inefficient and outdated processes that miss revenue and lack transparency. DoctorCare is disrupting how billing services are delivered to doctors across Canada. We combine a modern, technology-based approach and deep billing expertise, with a flexible, cost-effective fee structure that won't break the bank.

Whether you are a family physician, specialist, work in a big practice, or a small clinic, are using an EMR or not, we have solutions for taking the stress out of your medical billings. We work with any EMR and billing workflow to make sure you are maximizing revenue, minimizing errors and, freeing up your time so you can focus on taking care of your patients.

Billing and getting paid should not be this complicated.

DoctorCare has worked with thousands of physicians so we know how challenging and time-consuming billing management can be. Our Billing Care and Billing Care Plus solutions are cost-effective alternatives to traditional billing agents and alleviate the pain of billing submissions as well as managing and correcting billing errors. We also offer best-in-class financial reporting and transparency to make sure that you have a complete view of your revenue.

Automated Billing

Pain-free billing review, submissions, and management for any billing workflow.

Error Reconciliation

Resolve outstanding billing errors and automate re-submissions.

Reporting & Transparency

Gain insight into your billing performance, understand how you get paid, and key drivers of revenue.

Proactive Expert Help
