

Enhance patient care while optimizing your revenue with our new rostering and patient recall services.

Did you know that on average, you could be losing upwards of \$25,000 of revenue per year by not implementing best practices for diabetic recalls or roster management?

DoctorCare now offers rostering and patient recall services! We can help streamline your patient management processes so that you can focus on what you do best: taking care of your patients.

Earn on average, \$200 for every patient added to your roster plus \$5000 a year for your diabetic recalls.

Automatically action your Practice Care insights.

Let us take administrative burden off your plate by actioning your Practice Care report opportunities.

Diabetic Recall Lists	End-to-End Roster Reconciliation
<ul style="list-style-type: none">• Monthly diabetic recalls.• Identifying diabetic patients that have not been seen over three months.• Recalling patients on your online booking system.	<ul style="list-style-type: none">• Identifying patients who are not rostered to the physician.• Sending out rostering forms.• Collecting forms and billing the rostering code.
